- **CMMC** (Cybercecurity Maturity Model Cerification)

CLOUD2E

Over the past two decades, **CLOUD2E LLC has established itself as a leader in facilitating secure and compliant technology solutions for federal government entities,** including the intelligence community, defense contractors, and commercial companies engaged with the U.S. Government. With a storied history of over 20 years of technical expertise, our team has dedicated the last decade to specializing in the intricacies of cloud technologies, with a particular focus on the Microsoft Cloud ecosystem, including Azure Government. CLOUD2E LLC's profound understanding of the unique challenges and stringent requirements faced by these organizations has positioned us as a trusted partner in their digital transformation journeys.

Our involvement has been instrumental in helping our clients navigate the complex landscape of adoption, migration, and implementation of clients to Microsoft GCC High environments, ensuring they meet the highest standards of security, compliance, and operational efficiency.

Our expertise extends to the **critical area of cybersecurity and accreditation,** where we excel in aligning our clients' operations with the rigorous standards required for CMMC and other federal mandates.

This specialization in CYBER and accreditation processes underscores our commitment to safeguarding sensitive government data against evolving threats. By leveraging our extensive experience in Azure Government and the broader Microsoft Cloud, CLOUD2E LLC delivers tailored solutions that not only enhance our clients' security posture but also empower them with the advanced tools and capabilities needed to achieve their mission-critical objectives.

As pioneers in the field, our work has been pivotal in setting the standard for how organizations within the federal sphere adopt cloud technologies and maintain compliance with the nation's most demanding cybersecurity frameworks.

SERVICES WE OFFER

ENDPOINT MANAGEMENT:

Comprehensive support for all user devices including setup, maintenance, and troubleshooting to ensure optimal performance and security. This includes PCs, laptops, mobile devices, and any IoT devices integrated into the network.

IDENTITY AND ACCESS MANAGEMENT (IAM):

Secure and streamline access to your systems with our IAM solutions, including single sign-on, multi-factor authentication, and user lifecycle management to protect sensitive information and comply with regulatory standards.

CYBERSECURITY MEASURES:

Implementation of robust cybersecurity frameworks to safeguard your digital assets against threats. This encompasses regular security assessments, vulnerability scanning, and incident response planning.

BASIC IT SUPPORT:

A dedicated helpdesk for addressing all your IT-related queries and issues, offering solutions for hardware, software, network problems, and more, ensuring your business operations run smoothly.

BUSINESS SECTORS

DOD, MILITARY & GOVERNMENT SERVICES

Cloud2E has extensive experience supporting the Department of Defense (DoD), military, and federal government agencies. Our team provides IT solutions designed to meet the stringent requirements of government environments, including secure cloud deployments in GCC High, system modernization, and compliance with DoD STIGs and NIST frameworks.

INTELLIGENCE COMMUNITY

Cloud2E works closely with the Intelligence Community (IC) to support mission-critical systems and data. We specialize in secure multi-cloud environments, advanced data analytics, and the integration of big data engineering solutions.

COMMERCIAL / MSP

As a trusted Managed Service Provider (MSP), Cloud2E partners with businesses of all sizes to provide IT solutions that drive operational efficiency and growth.

Our services include comprehensive IT management, cloud migrations, endpoint protection, backup and disaster recovery, and vulnerability management.

CYBER SECURITY & CMMC

Cloud2E is a leader in cybersecurity solutions, with a specialized focus on helping organizations achieve compliance with the Cybersecurity Maturity Model Certification (CMMC).

We offer tailored security assessments, gap analyses, and remediation strategies to align businesses with the highest standards of data protection and regulatory compliance.
